**Ex Parte Quayle Action**

1. This application is in condition for allowance except for the following formal matters:

- A.. In claim 32, line 2, "wherein it" should be deleted.
- B. In claim 32, step (c), "and, then," should be deleted.
- C. In claim 32, line 4 of step (d), "the previous" should be deleted.
- D. In claim 32, line 5 of step (d), "(d') or," should be changed to recite --or, (d')--.
- E. In claim 32, step (e) and step (f) should be moved down to separate lines after step (d) and indented as in step (a), (d), (c), and (d), but not together because they are too difficult to read and also it is inconsistent with the format of step (a) through (d) in the same claim.
- F. In claim 33, line 1, "step (e)" should be changed to recite --step (f)-- because there is no calcination in step (e).
- G. In claim 37, the claim recites "The method as claimed in claim 32, wherein in step b) a basic compound the mixture is further being added into a solution of this basic compound". It is unclear and confusing as to what applicants meant to claim. Also, "step b)" should be changed to recite --step (b)--.
- H. In claim 42, line 1, shouldn't "postcombustion" be --post-combustion--?
- I. Claim 45 appears to be a duplicate or in circular of claim 31 (which depends from claim 23). It needs to be canceled.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

**Status of Withdrawn Claim(s)**

2. Claims 35-40 & 42 were previously withdrawn. They have now been rejoined with the elected product claims since the product claims are now found allowable.

**Specification**

3. The examiner has not checked the specification to the extent necessary to determine the presence of **all** possible minor errors (grammatical, typographical, and idiomatic). Cooperation of the applicant(s) is requested in correcting any errors of which applicant(s) may become aware of in the specification, in the claims and in any further amendment(s) that applicant(s) may file.

Applicant(s) is also requested to complete the status of the copending applications referred to in the specification by their Attorney Docket Number or Application Serial Number, **if any**.

The status of the parent application(s) and/or any other application(s) cross-referenced to this application, **if any**, should be updated in a timely manner.

**Response to Applicants' Arguments**

4. The remarks and Declaration under 1.132 filed on 12/28/09 have been fully considered. The arguments are found persuasive, thus the rejections made in previous office action have been removed.

**Conclusion**

5. Claims 22-45 are pending. Claims 22-44 are allowed. Claim 45 (to be canceled?).
